

## **AlcoholEdu® for High School Student Directions**

We are asking you to take AlcoholEdu for High School, an innovative online course designed to give you the scientific background about how alcohol affects the body and mind, and to assist you in making healthy and safe decisions.

AlcoholEdu for High School also includes a Pre-Survey at the start of the course and a Post-Survey immediately following the Final Exam. About a month after completing the Final Exam and Post-Survey, you will take the Course Conclusion and complete a Follow-up Survey. It's important for you to know that these surveys are **strictly confidential**; none of your answers to any of the questions will be shared with anyone, including your parents or guardian, your teachers or the school.

We have contacted your parents to obtain their approval for you to fill out these surveys.
